BUSINESS LOOKING UP

Havana Merchants Are Preparing For Increased Trade.

PORTO RICO ALSO EXPECTING BUSINESS REVIVAL.

Havana, Aug. 24—Special—Citizens of Havana generally are accepting the changed order of things philosophically. Although the Spanish troops are still here they are not looked upon as rulers of the city, and are not permitted to dominate over the citizens as they formerly did. Business is reviving, and is conducted mostly on a cash basis. American money is occasionally seen, and is accepted in payment for goods at par. The more sagacious of the merchants are trimming their sails in anticipation of the change from Spanish to American methods of conducting business. Speculation is avoided. While values are yet high there has been a great fall in prices since the raising of the blockade, and there is consequently less suffering among the poor.

Open For Trade.

Kingston, Jamaica, Aug. 24—Special—The port of San Juan is now open, but as yet no move has been made to resume commercial relations owing to the fact that the Spanish officials yet control the city and port. As soon as the Americans take charge of affairs a brisk trade will spring up between this city and the Porto Rican port. Merchants here are anxious to extend their trade in that direction, and are prepared for an extensive business.

To Be Mustered Out.

Washington, Aug. 24—Special—The list of volunteer regiments to be mustered out is nearly completed. Among the infantry regiments on the list are the following: Seventh and Ninth Illinois; Hundred and fifty-seventh, and Hundred and sixty-first Indiana; Cos. A and B, First Indiana, colored; Fiftieth and Fifty-second Iowa; Thirty-second and Thirty-fifth Michigan; Fourteenth and Fifteenth Minnesota; Fourth Wisconsin, artillery; Twentieth Indiana; Fifth and Sixth Iowa; Wisconsin light battery.

Heard of the Protocol.

London, Aug. 24—Special—A Havana dispatch says the Spanish cruiser Infanta Isabella reports having met the American warship Nashville Monday. The American immediately preparing for battle the Spaniard informed the American that the peace protocol had been signed, whereupon the crew of the American vessel cheered. The two warships proceeded together to Gibara.

Studying the Situation.

Washington, Aug. 24—Special—The Cuban commission is hard at work completing plans for sailing to Havana and studying questions that the situation in the islands present. The commission expects to sail about September 3.

Cubans Repulsed.

Madrid, Aug. 24—Special—A telegram was read at the council meeting last night announcing further attacks by Cubans upon Spaniards. The attacks were repelled with great vigor, the Cubans losing 500 men.

Blanco Gave the Order.

Madrid, Aug. 24—Special—Government authorities deny that they had any knowledge of orders given Cervera to leave Santiago harbor with his squadron. They say the order was given by Blanco.

Rumors That Are Gauzy.

Washington, Aug. 24—Special—There are rumors that Archbishop Ireland will be appointed archbishop of the see of Manila and Archbishop Keane archbishop of San Juan.

The Peace Commissioners.

New York, Aug. 24—Special—A Washington special says the peace commissioners' appointments will be announced Friday or Saturday.

Given by Helen Gould.

New York, Aug. 24—Special—Helen Gould has donated \$25,000 additional for the relief of the sick and wounded soldiers.

GOODEN WRITES OF SANTIAGO DE CUBA

LOCAL RELATIVES RECEIVE AN INTERESTING LETTER.

Says That the Fighting Was Terrific at Santiago—Criticizes General Shafter and His Staff—Describes The Soil as Rich and Very Productive—Now at Montauk Point.

An interesting letter bearing the date of Thursday, August 4, and the post mark of the postal station at Santiago de Cuba, arrived in the city yesterday, addressed to John Gooden, of 51 North Bluff street. It was from his son, William Gooden, who took an active part in the fighting at Santiago as a member of the Twenty-First Infantry.

In his letter he states that one in Cuba can depend very little on getting his mail from the United States, letters which he just received having taken a month in transit.

The United States government, he says, cannot send them back any too soon, as many of the men are suffering much, and are dying off fast each day.

Get Undeserved Praise

The Second Volunteer Regulars, he says, were a big fraud in the battle of Santiago, and they are now receiving praise from the public which they do not deserve. They marched ahead till the firing commenced, and then the brave Regulars took their places and did heroic fighting, while the Volunteers did the cheering. "Just before the battle," writes Mr. Gooden, "the band, of which I am a member, were given orders to disband. Then each man was given a rifle and was ordered into line to see active service. The fight that followed was terrible, and the killed during the first engagement were many. We all went through much suffering, and one would not have thought that a man could have stood such hardships. Many men who were in our regiment saw service in the civil war."

Cubans a Worthless Lot.

In speaking of the Cubans Mr. Gooden says that as a whole they are a worthless set of people, dirty and selfish, and don't seem to be a bit thankful for what our soldiers have done for them. Compared to the Spaniards he said that he would rather have one Spaniard than three Cubans. "They are all niggers and to see a white Cuban is not an everyday occurrence," Mr. Gooden says that since the surrender of the city his company has been camped near the city. Santiago de Cuba he describes as being a dirty place filled with an ignorant looking set of people. To get inside the city one must first get a permit. The soil throughout Cuba is rich and very productive. In the morning the sun is very hot, but in the afternoon it is sure of rain, making the nights cool and comfortable.

Criticize Shafter.

In speaking of General Shafter, he says that the men in his company do not think well of him or his way of managing things in Cuba. They believe that all their victories have been won only by hard fighting on their part, making it a soldier's battle through and through.

A Cuban American Paper.

A letter arrived in the city today from Mr. Gooden, written at sea while he and his regiment were on their way to Montauk Point, N. Y. Enclosed in his letter was a copy of The Times, a daily paper published at Santiago de Cuba, and the first American paper printed in that city. The Times, in speaking of Cuban journalism, says:

"Early yesterday morning we attempted to inaugurate American methods in our office, with the object of gathering news for our paper which should go to press early in the afternoon. We gave our two best reporters assignments, one in the lower part of the city while the other was to take the upper part and stir up the town for something of interest to our readers. One had seen an interesting dog fight while a Cuban's horse ran away with a negro. The other had interviewed the governor, had seen a beggar tumble down stairs and break his neck and a native policeman actually try to arrest a man."

A CIRCUS IN TOWN TODAY

It Did Not Show Here, However, But Went to Brodhead.

A circus was in town today, but its stay was brief. At 6:30 o'clock this morning the John Robinson circus arrived in the local Chicago, Milwaukee & St. Paul yards, being on its way to Brodhead, where it showed today to a large house. After a half hour's stay here the show took its departure. Yesterday the circus showed to good business at Burlington.

The Robinson show is controlled and run by Ringling Bros., of Harborside. A number from this city attended the performance at Brodhead this afternoon.

The necessity of paying 20 and 25c for collars is done away with since we received this new lot of fine linen 4-ply, all styles, at 15; two for 25 cents. Zeigler.

HORSE THIEF HERE BUT DISAPPEARED

LOCAL POLICE NOW LOOKING FOR STOLEN OUTFIT.

C. P. Nettleton, a Kingston Livery man, Traces His Man to This City Thief's Name Is King, and He Is a Canadian—Rig Was Disposed Of Between Here and Columbus.

O. P. Nettleton, a Kingston, Wis., liveryman, was in the city today, looking for his horse and buggy that was stolen from him a week ago today. After spending six days in looking for the outfit Mr. Nettleton says he is now positive that it was disposed of somewhere either in this city or between here and Columbus. On the evening of August 17 a stranger giving the name of King, and his residence as Canada, walked into the Nettleton barn at Kingston and hired the rig, claiming that he wanted to drive five miles into the country on business, and that he would only be gone a couple of hours. The stranger had a good looking face, and seemed to be a man of good character, so the men at the barn let him have one of the best outfits in the barn.

Did Not Reappear.

As night drew near the stranger and the rig failed to show up, and as nothing was heard from them that night or the next day Mr. Nettleton began to get uneasy. He first instituted a thorough search himself, and finding no trace of the property he informed the police. Telegrams and telephone messages were sent out in all directions giving a good description of both the man and the outfit. The officers at once made for every livery stable within fifty miles of Kingston. In several places King was seen with the rig, and places he put up at over night were frequently found. In several towns the officers were close on his trail. At Columbus, Wis., the last good clue of the whereabouts of the missing outfit, was found. At a livery stable King put the rig up, and then went to one of the local hotels. After a rest he took the rig and left the city in a southerly direction. Prior to his leaving he inquired the way and the distance to Janesville.

Came to Janesville.

Mr. Nettleton says that after leaving Columbus King came direct to this city and that after reaching here he sent a telegram to a lady friend of his in Heloit urging her to meet him. Whether or not King brought the rig here or whether he disposed of it between here and Columbus is a question that the police of Janesville are now trying to ferret out. The much wanted man is now said to be in Michigan. The police are hot on his trail and his arrest is now only a matter of a short time. Sheriff Acheson received a telephone message yesterday notifying him that the stolen outfit and thief were headed this way and that a reward of \$25 was offered for the arrest of the man. A careful search of the local livery barns today failed to reveal any strong clues as to the outfit.

The thief is described as a man of years weighing about 135 pounds. He is dark and has a bald head.

The stolen outfit embraces a horse, a top buggy and harness. The animal is a handsome bay mare weighing about ten hundred pounds with his foretop and mane ratched. At a late hour this afternoon the police were still looking.

NO CHANGES WILL TAKE PLACE

Northwestern Officials at Janesville Will Remain As At Present

An impression might have been created by a paragraph in The Gazette of yesterday that there was a prospect of some changes in the personnel of the Chicago & Northwestern officials in this city. It is not the custom of the company to make such changes except for dire necessity in duty, and as the local officials have given perfect satisfaction there is no danger of the removal of any of them except in the line of promotion. That there is danger of this all will admit, for a more capable lot of officials does not exist along the line. The public will be glad to know that no changes are likely to take place in the near future, even though promotions are well deserved by many of the men in the service of the company here.

AGUINALDO PEACEABLE

Rebel Philippine Leader Coming To Terms.

WILL BE SEVERELY DEALT WITH UNLESS HE SUBMITS.

Washington, Aug. 24—Special—Advices from Manila represent the situation as much improved. Gen. Merritt has succeeded in bringing the rebel leader, Aguinaldo to his senses, and the natives, unarmed, will be permitted to enter the city. Precautions have been taken against treachery, however, and any attempt to violate the terms of the permit will be visited with severe penalties. If Aguinaldo, has the good sense to accept existing conditions he may continue to occupy a leading position among his countrymen. If he resists he will be treated as an enemy and placed where he will be powerless to work harm. Gen. Merritt's policy has the full approval of the authorities here.

Will Retain Luzon.

Washington, Aug. 24—Special—The official announcement that the commissioners to the Paris peace conference have been instructed to insist upon the retention by the United States of the island of Luzon is received with satisfaction here. This can scarcely be refused by Spain in view of the fact that the Americans are already in possession of Manila. The policy of territorial expansion has not been sought by the administration; it has been forced by circumstances to adopt it. Any other course than the one decided upon would lack fitness. It would be impossible to permit the territory to revert to Spain; it would be without precedent to turn it over to any other power. The commissioners will go to Paris with full instructions upon this matter.

Santiago Schools.

Santiago, Aug. 24—Special—Gen. Wood had a conference with the school commissioners today. As a result the schools will open early in September. Sectarianism will be eliminated, and English introduced in the course studies.

The steamship specialist sailed today with four batteries of the Eighth artillery. The Minneawaska also sailed with part of the Thirty-third Michigan engineer corps, a squadron of the Second cavalry, and part of the First District of Columbia.

Prisoners Well Treated.

Portsmouth, N. H.,—Special—The difference in the treatment of the Spanish prisoners here and the marines guarding them is causing comment. The Spaniards have good sleeping quarters while the marines are apparently forgotten. The prisoners are supplied with the best of food furnished by the United States and the sick are being deluged with bouquets from the ladies.

Porto Rico Notes.

Ponce, Aug. 24—Special—A big fire is raging east of here, but has not been located.

Gen. Miles is awaiting the arrival of his wife and daughter.

Advices received from all parts reports everything quiet.

Schley Is Improving.

Norwalk, Conn., Aug. 24—Special—The condition of Commodore Schley is greatly improved today. He will probably be able to leave for Washington the latter part of this week.

Frye Has Accepted.

Washington, Aug. 24—Special—Secretary Day said this morning that he understood Senator Frye had accepted the peace commissionership.

Gone to Montauk Point.

New York, Aug. 24—Special—Secretary Alger went to Montauk Point this morning to investigate the condition of the sick and wounded.

Changed Camp.

Lexington, Aug. 24—Special—The Twelfth Minnesota arrived last night.

NEWS FROM NEARBY NEIGHBORHOODS

INCOMINGS AND OUTGOINGS OF ROCK COUNTY PEOPLE.

Gossip of a Personal and Business Character Gleaned By Gazette Reporters in the Garden Spot of Wisconsin—Religious and Social Notes.

Footville, Aug. 23.—The sad news of the death of one of our soldier boys, Will McNeill, reached us late Thursday evening. It was a great shock to the community as his condition was not considered critical. The funeral services will be held at his late home in Marshall, today at 2 p. m. George Shaw, who enlisted with him, accompanied the remains from the camp. John Torpy and Jamie Howe were pleasant callers in our village Sunday evening. Miss Edna Townsend, of Magnolia, visited with friends here part of last week. Amy E. Ross is visiting relatives and friends in Brookfield. L. G. Ross, E. A. Richards and H. Silverthorn started at 3:30 this morning, for Marshall, to attend the funeral of the late William McNeill. Misses Clara Fisher and Nellie Langdon spent Sunday with Janesville friends. Arthur Wiggins and Roy Holmes made a business trip to the county seat Sunday afternoon. Zoo Cory contemplates attending Evansville seminary the coming year. Our high school students, also, are beginning to think of work again. Miss Edith Maltress, of Edgerton, is visiting Jessie Silverthorn. Miss Silverthorn entertained, very pleasantly, last evening, a number of young people, in her honor. At the Evansville vs. Footville ball game, last Friday, Footville won, the score being 11 to 15. Miss Sue Harper visited Magnolia friends last week. Mrs. Webb Owen is in a critical condition. Miss Kathryn Plunkett spent part of last week in Janesville. Mr. and Mrs. Warren Cain spent Sunday in Calumet. Mrs. Fred Snyder and Master Raythorn are the proud possessors of new bikes. Walter Graves, of Magnolia, spent last evening here. Frank Kent and Joe Fisher, of Janesville, were seen on our streets one evening last week. Mr. and Mrs. T. J. Dann are visiting their daughter, Mrs. Hoeber, of Chicago.

Emerald Grove, Aug. 24.—Robert Lilburn shipped on Monday four registered polled Angus heifers. They go to Columbia county, Wis. Tobacco harvest began Monday and all growers are busy shedding. If no hard storm occurs this week the tobacco men about here will have some fine tobacco to show the buyers next January. Miss Ethel Wargatt, of Janesville, spent last week with Miss Edna Wright. Mrs. D. E. Jones and children, Arthur and Flora, who have been spending a week with relatives at Arlington, returned home on Tuesday. Fruit jars at Gillies & Jones. Eddie Comerford, grandson of Mr. and Mrs. Peter Decker, picked up an old French coin while digging in the yard Monday. The coin bears the date of 1752 and is a trifle larger than one of our dollars. Rev. T. S. Oadams and family are visiting Mrs. Oadams' parents. Several of our young men have leased farms to work for 1899. The boys say it don't mean anything, but still they are looked upon with suspicion by those who think they know. The Congregational church and Sunday School will hold a picnic at Rocky Dell, Friday, August 26. Everybody invited. Mrs. David Durcan, of Chicago, accompanied by Miss Kittie Barless, are enjoying the country air at the home of Mrs. Margaret Barless. Miss Potter, of Fort Atkinson, spent last week with Mr. and Mrs. C. D. Fitch. N. F. Goodrich is able to be out again. Miss Clara Bess has returned from Eau Claire, Iowa, where she has been with her sister all summer.

Porter, Aug. 24.—Miss Eva Jessup, of Englewood, is the guest of relatives. Mrs. Mae Tracy, of the town of Fulton, spent part of last week with friends. Mr. Fred Tolles, of Milwaukee, was the guest of his brother recently. A number of our young people attended a dance at Mr. Pierce's, near Evansville, last Thursday evening and report a fine time. Mrs. Ed. Moore still continues very low, although there is a slight improvement. Mrs. Flynn returned to her home in Janesville on Wednesday. Miss Dell Tolles is engaged to teach her first term of school in "Forest Academy," this fall. Mrs. Maggie Mooney, of Edgerton, will teach in the Eagle district for the succeeding year. Miss Kittie Lay has just earned a bicycle, by selling tea and coffee for W. G. Baker. A photograph entertainment was given in the Eagle school house on Saturday evening, which was a pleasant affair. Miss Audrey Hadley, of Evansville, spent last week with friends in Porter. Ed. Tracy, of Janesville, was a caller on

Friday. D. Pound, of Janesville, was here on Thursday. George D. Mansfield and wife, of Edgerton, were callers on Friday. Farmers are busy harvesting tobacco, which is a fine crop in this locality.

Fairfield, Aug. 24.—Several of our citizens are on the sick list at present. Miss Lulu Swartz is recovering from Mrs. Edgar Ransom, of Emerald Grove. Mrs. Robert More is in the Palmer hospital, of Janesville, for treatment. Charles Harding and family spent Sunday with Mr. and Mrs. Harrison Wilkins. Abner Chamberlain and family expect to soon move to a farm east of Delavan. Mrs. Anna Duth & Cooper and children, of Watford, Wis., are visiting Bradford relatives. Henry Williams is planning to rent his farm and move his family to Darion. J. Bustin has returned to Texas after a two weeks' visit with his family. Joseph Johnson has sold his farm to parties from Madison. Mrs. Mary O. Johnson, of Lima, is visiting her son at this place. Mr. and Mrs. J. C. Searl spent last Saturday with their son in the town of Fulton. Horace Wilkins' wheat field yielded an average of eighteen bushels per acre.

WILL COMBAT THE TRUST

Good Progress Being Made on the New Cracker Factory.

The new cracker factory that is now nearing completion in this city, and which will soon be in charge of the local bakery firm of Hockett & Son, will no doubt attract much attention from the so-called cracker trust. If there is anything on earth that the cracker trust detests it is a new factory in the field, that proposes to operate independent of them.

At Green Bay last week when it became known that the J. P. Annen Candy Company proposed to add a cracker department to their candy business, one of the directors of the National Biscuit company appeared on the ground, called upon the company and said that if crackers were added another candy factory would probably be started and prices on candy and crackers would be cut, when he was told that the Annen Candy & Biscuit Co. proposed to maintain prices he said, "We have ovens enough to make all the crackers for the United States. This is all our business and we will permit no one else to take it."

A short time later a representative from a Minnesota factory came to Green Bay and cut prices.

SAYS CAMP IS WELL MANAGED

Correspondent of a Medical Journal Commends the Hospital Surgeons.

A correspondent writing to the Philadelphia Medical Journal from Camp Cuba Libre, Jacksonville, says: "I believe the hospital corps is the best worked part of the army. The volunteer surgeons find the regular army surgeons most obliging gentlemen. They overlook any lack of knowledge of military form and help to facilitate the work. All realize the difficulty of meeting the needs of so great a military force at once and attach little importance to the unjust criticisms of the medical department. But no one should write without giving credit to the Red Cross society for the work it is doing. Each day it gives the hospital fifty gallons of milk, 2,000 pounds of ice, and thirty dozen eggs, besides a vast number of other things necessary for the sick."

WILL NOT PLAY THE BADGERS

Chicago's Foot Ball Team Object to the U. of W. Team.

John Fisher, of this city, as manager of the University of Wisconsin foot ball team, has yet plenty of trouble ahead of him before his eleven and the Chicago University boys get together. In an interview at Chicago yesterday Coach Stagg, of the Chicago eleven, would not say directly that the Cardinals would not be granted a game if a game were asked for, yet such seems to be the situation. While Stagg and his men would like nothing better than to try for the Badger's scalp, yet it is almost settled that Chicago will not play Wisconsin until it is certain a change in regard to the amateur standing has taken place at the Madison school.

SAFETY FOR THEATER-GOERS

Fire Alarm to Be Placed in the Opera House and Large Exit Opened.

A fire alarm system is to be placed in the Myers Grand opera house that will in the future insure safety in case of fire. Alarms will be placed on the stage and in the balconies, so that there will be no trouble in notifying the theater-going public if danger is at hand. The system to be put in will be complete in every detail, and will be similar to those used in the large cities. Manager Myers will also see to it that the large exit door on the east side of the house will be utilized in the future after each performance. This was not done last season, and it caused much inconvenience.

LIGHTNING CAUSES DAMAGE

Done in the Town of Harmony Struck and Grain Destroyed.

About 6 o'clock last evening, during the thunder storm, lightning struck the barn of Mrs. Isabella Youngclaus in the town of Harmony, some five miles from this city. Flames broke out immediately and soon enveloped the barn and a number of grain stacks adjoining, and they were all consumed. The loss will amount to about \$1,500, upon which there is no insurance.

Stop that cough. Take warning. It may lead to consumption. A 25-cent bottle of Shiloh's cure may save your life. For sale by People's Drug Co.

GERMAN CATHOLICS IN CONVENTION

LARGE GATHERING OF PRIESTS CONFER IN MILWAUKEE.

Bishop Messmer Bears a Message From the Pope—Contention Over the School Question—Formal Proceedings of Normal Schools Alumni—Catholic Schools in Germany.

Milwaukee, Wis., Aug. 24.—Five bishops, one of them an archbishop, attended the meeting of the German Catholic societies yesterday and two of them made addresses. One delivered an admonition that came from Rome direct instructing and urging the members of the societies upon their return to their homes to spread broadcast what might be said to come almost from the pope himself. These utterances were from Bishop Messmer who has just returned from his pilgrimage to Rome and the subject was concerning the school question.

Not only does Bishop Messmer take a radically opposite stand to Archbishop Ireland with reference to school question but he told the members of the societies this morning that the propaganda viewed with regret the attitude of many of the English speaking Catholics in this country on the school question, while the position of the German Catholics met with approval.

A Catholic Day.

Bishop Messmer spoke of the importance of the German-American Catholic day as an agency to promote Catholic life, and urged the societies to live up to the Catholic spirit, and not the so-called American Catholic spirit. He did not refer to Archbishop Ireland in his address, but his meaning was plain in the presentation of the opposite phase of the school question to that advocated by the noted archbishop. He said that he was informed by the pope's accredited representative of the regret of the pope at the attitude of the English Catholics in this country, and that it was the papal wish that the priests should reason with their people and induce them to send their children to the church schools in place of the public schools.

Priests in Convention.

Fifty priests were present at the convention yesterday morning. The reports spoke of the gratifying work being done by all the organizations in which they were interested, and a resolution was adopted requesting the donation of the money collected for the German chair in the Washington university to the German English academy at St. Francis.

Seventy-three societies were represented in the convention of the Young People's societies. At the evening session Archbishop Katsch spoke of the diamond jubilee of the pope, and Rev. W. Oluse, of Watertown, made an address upon "Materialism and Religion." Professor W. Rolf spoke of "Praise of the German Tongue."

Alumni of Normal Schools.

The alumni of the Catholic normal school are holding their first reunion at St. Francis, Wis. Teachers from all parts of the country are in attendance. The opening took place with high mass at which Rev. J. M. Kasel, H. T. Stemper and H. B. Reis officiated. The address was delivered by Rev. August B. Salick, of Milwaukee. The choir, under the direction of Prof. J. Slungenberger, rendered Witt's Lucia mass.

After the services the teachers met in session and resolved to organize a teachers' society. The officers to preside at the sessions are Rev. J. M. Kasel, of St. Francis, Wis., chairman, and Anthony Matro, of Clinton, secretary. Rev. Mr. Kasel, Professor H. Wilberding and Probst, Dubuque, Ia., N. Klefer, Buffalo, N. Y., and S. Lindenberg, Belleville, Ill., were appointed a committee on constitution.

First Meeting of Congress.

The first general meeting of the German-American congress took place yesterday afternoon at 4 o'clock. Dr. Ernest Lieber, leader of the centralists in Germany, was invited to explain to the assembly the formation and development of the manifold Catholic organizations of his country. Dr. Lieber spoke of the system of Catholic societies, political social and commercial, in Germany and explained the formation of the centralist party and its principles, both of the national and provincial organizations. He cautioned the delegates against founding too many societies and urged them to strengthen the existing societies, particularly the central union.

HENRY B. JOHNSON IS ILL

An Old Settler of This Region Suffering From Pneumonia.

Henry B. Johnson, one of the early and most highly respected residents of Rock county, is dangerously ill at his Milton avenue home in this city. The cause of his present illness is pneumonia, and as he is a man seventy-one years of age it is hard for him to shake the disease from his system.

Mr. Johnson for a number of years resided at Johnston, and is one who is known and respected throughout the entire county. Several weeks ago he accidentally bruised his shoulder, which injury has caused him much trouble since. Mrs. Johnson, his aged wife, is also ill, and local friends and relatives are much concerned.

Truth wears well. People have learned that Dr. Witt's Little Early Risers are reliable little pills for regulating the bowels, curing constipation and sick headache. They don't grip. People's Drug Co., corner East Milwaukee street.

KNIGHTS OF SAWDUST RING

Circus Business Has Been Light in the East, But Is Improving.

Warren Patrick, of this city, who is auditor with the Ringling Bros. circus, writes local friends from Lansing, Mich., stating that the show is at present enjoying a large business, and that the indications are that good show business will continue during the balance of the season.

In the east the war injured their business to a large extent, which compelled them to seek western territory at once. Through Indiana and Michigan they drew large crowds daily. The show has put on a great war spectacle, which seems to have caught the fancy of the public.

Mr. Patrick says that they are now working south, and that all are hoping to escape yellow fever.

NEW EMERGENCY STRETCHER

Useful Contrivance Sent to the Fire Department in This City.

E. B. Holmstrom received a package yesterday containing a Chadwick emergency carrier with instructions to put it on the Fire Police ambulance for use.

This carrier is a new invention, being a stretcher that is carried by two persons and is valuable on account of its use in going upstairs or in steep places. It is made of heavy canvas and bears the Red Cross insignia, being now used in the army. It is a very nice gift, and was presented by Messrs. Johnson & Johnson, the celebrated plaster manufacturers, of New Brunswick, N. J., who furnished immense amounts of absorbent cottons and gauze to the army and navy.

CONVALESCENT HEROES

How Uncle Sam Is Caring For His Disabled Soldiers.

THE FINE NEW HOSPITAL CAMPS.

Three Popular Resorts Which Have Been Appropriated to the Use of the Sick and Wounded Men Who Have Come Limping Back From the War.

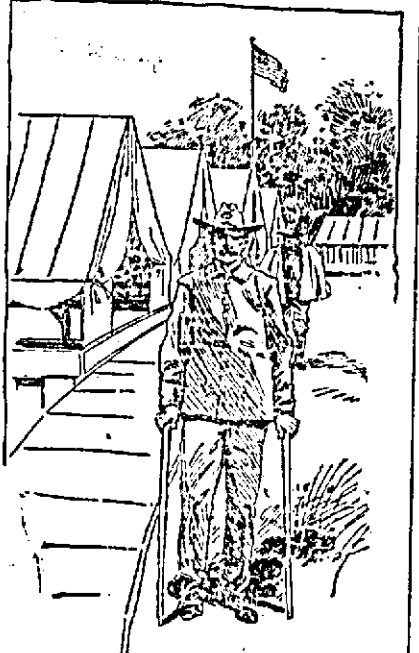

It is the convalescent heroes who hold first place in the public affection just now. Back from the front with bandaged arms, legs and heads, with fever-shaken frames, with tropic tanned faces, come the brave soldier boys who went out but a few weeks ago to the cheery rattle of drums and the exultant cry of bugles. Back they come, some limping, some hobbling, some bravely marching down the transport gangplanks. Back they come to be nursed and petted and doctored back to health.

No fond mother, no anxious father, no loving sweetheart, need fear that they will not have the best of attention. There may have been criminal neglect and incompetency in sending home the first sick laden transports from Cuba, but the men who were said to have done it have denied their guilt and clinched their denial by promising that these things shall never happen again. They will carry out their promises, too, for the heart of the nation has been touched by those stories of needless suffering, and the deep voice of the nation has growled a warning that will be heeded.

Meantime most elaborate preparations have been made for receiving not only the sick and wounded, but for removing from unhealthful camps the patient volunteers who have had no chance at all to fight, but have drilled and waited, eagerly expecting the word which never came. The finest locations that could be found have been picked out for the new field hospitals and army camps. Spots to which the fortunate civilian goes for brief summer outings have been appropriated as camping grounds for the soldiers who fought for those who wanted to fight but didn't get a chance.

Perhaps one of the largest and most beautifully situated of these new camps is that which is now being established on Montauk Point, where Shafter's army has been ordered. This point is at the extreme eastern end of Long Is-

land, one of the most famous seaside resorts in the country. Another big field hospital has been established for some weeks. The hospital camp at Old Point is located on a site only a few minutes' walk from the Lyceum and Chamberlain hotels, just below the ramparts of Fort Monroe. About 50 patients occupy the post hospital building, and several hundred more are in the tents just back of this building. There are eight rows of tents, each row a couple hundred feet in length and intersected by streets, on the sandy soil of which board walks are laid. Hydrants are placed along these

A HOSPITAL STREET.

streets, so that pure water brought in pipes from Newport News for Old Point is abundant. Outside of each tent is a large corrugated iron can for refuse, and a complete sewerage system has been put into operation for this little city of white tents.

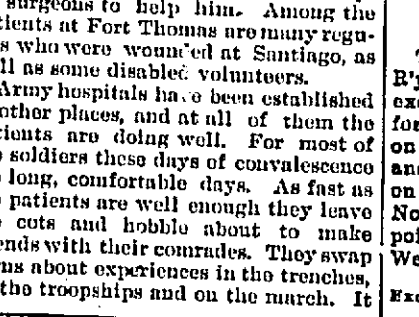

A large kitchen and dining room have been completed, and all the men able to leave their beds go there for their meals. The site of the camp is on a slight elevation. The surface drainage is perfect, and after a rain the sandy soil is dry in a very short time. The city of tents so quickly put up is regarded as perfect from a sanitary point of view.

The tents are as comfortable as a costly hospital building. The spring beds are three feet apart, and at the head of each is a crudely constructed shelf or shelves for the effects of the sick occupant, and on each of them, if the patient is a smoker, tobacco and pipes are placed so that devotees of the weed can while away the tedious hours of the day and evening by indulging their pet habit.

There are plenty magazines and newspapers through the tents, the wounded men taking the greatest interest in reading war news. This supply of reading matter has been donated, coming from all parts of the country. The wounded soldiers live in their pyjamas, lounging on their beds or strolling about the grounds in them. It is a queer sight at mealtimes to see the men file out from the tents and go to the dining room arrayed in varicolored pyjamas. Most of them can walk without difficulty, though perhaps a fourth of the whole number hobble along on crutches or use a stout cane.

Fort Thomas, that picturesque and beautifully situated army post on the Kentucky highlands overlooking the Ohio river, has been changed into a big army hospital where from 300 to 400 soldiers are regaining their health and strength. The commander of the fort is the deputy surgeon general, Lieutenant Colonel W. H. Gardner, and he has a force of 65 trained nurses besides a corps of surgeons to help him. Among the patients at Fort Thomas are many regulars who were wounded at Santiago, as well as some disabled volunteers.

Army hospitals have been established at other places, and at all of them the patients are doing well. For most of the soldiers these days of convalescence are long, comfortable days. As fast as the patients are well enough they leave the cots and hobble about to make friends with their comrades. They swap yarns about experiences in the trenches, on the troopships and on the march. It

INTERIOR OF FIELD HOSPITAL AT OLD POINT.

is all fresh and new to them yet and their eyes kindle as they recall incidents which had been half forgotten in the rush of events. They read and smoke and doze idly, dreaming of the day when they can go home. Then there are letters and visitors from home and at last comes the welcome furlough, and the disabled hero leaves for home itself. There he is petted and praised and stared at and lionized to his heart's content and there he finds a never failing audience to hear his stories about "how we captured Santiago and licked the Spanish out of their boots."

NO PARADE OF THE ARMY.

Troops Too Debilitated to March—Fifth Corps May Celebrate.

New York, Aug. 24.—A special to the Herald from Washington says:

"It does not seem to be the present plan of the administration to have any general parade of the army in New York city. Secretary Alger said there might be a parade there of the state troops, but the army was too worn out and debilitated to march in a procession. The secretary said that as soon as Gen. Shafter arrives at Montauk point the president will probably go there to review the whole corps. Shafter expected to sail Saturday, but has been delayed a few days. It is not believed that Gen. Miles will be present at the review at Montauk point as the occasion will probably be a Fifth army corps celebration only."

To Investigate Maine Disaster. Washington, Aug. 24.—While the Cuban military commission is sitting at Havana it will investigate a matter that has never been satisfactorily settled—the blowing up of the Maine. So far as could be learned from an examination a submarine mine sunk the splendid fighting ship. It was decided that this was true, but no effort was made to fix the responsibility. When Gen. Fitzhugh Lee was in Washington recently he went over the evidence he had collected in Havana, and expressed the opinion that after the evacuation of the Spanish army many people in Havana would open their mouths and give testimony that would show the crime to have been committed by officers connected with the Spanish army.

Italy and Monroe Doctrine. New York, Aug. 24.—In a dispatch to the Herald from Rome it is said that during the negotiations between Italy and Colombia in regard to the Corral question, Sig. Canevaro, minister of foreign affairs, announced his intention of carrying Mr. Cleveland's decision as arbitrator into effect and asked to be informed whether the Corral affair would in any way compromise the good relations between Italy and the United States. The reply was that no solution, even if it involved recourse to force, would in any way affect the relations with the Italian government. He, therefore, gave orders for immediate action and Colombia at once desisted from further shuffling.

Canadians Sent Back.

Ottawa, Ont., Aug. 24.—A number of Canadian agriculturalists who were going to North Dakota and who have been returned home by the United States customs officers at Port Huron, have laid their case before the dominion government. They have applied for compensation. The reason for their return was that they had an arrangement with the Grand Trunk railway for a cheap return fare, providing that they worked with a farmer in Dakota for less than thirty days. The certificate of service in Dakota, which was to be signed by a farmer, was held by the customs officer to be a contract and a violation of the alien labor law.

Finally Found Guilty.

Memphis, Tenn., Aug. 24.—The fifth trial of A. K. Ward, charged with forging notes for the amount of nearly a quarter of a million dollars, resulted today in a verdict of guilty and the defendant was sentenced to three years' imprisonment in the penitentiary. All the previous attempts to convict Ward had resulted in mistrials. Another new trial is asked for.

Says Cuba Is to Be Handed Over.

London, Aug. 24.—The Standard's Santiago de Cuba correspondent, writing under date of Aug. 9, tells of an interview with Gen. Demetrio Castillo, in which the latter claims to possess assurances from the Washington government that by May, 1899, not a single American soldier will be left in the island, which will be handed over to a duly elected Cuban government.

Minister Denby Coming Home.

San Francisco, Cal., Aug. 24.—Charles Denby, late United States minister to China, who has just returned to this country after thirteen years of consecutive service at the Chinese capital, is now on his way to his home. He approves of the annexation of Hawaii, but refuses to discuss official affairs.

To Increase German Army.

Berlin, Aug. 24.—The National Zeitung announces considerable changes and an increase in the army. It says the formation of another army corps, with headquarters at Mainz, is contemplated, and that the artillery arm of the service will be organized.

WIPING OUT OLD SCORES

What the Quebec Conference Is Meant to Accomplish.

WE SHAKE HANDS WITH CANADA.

Uncle Sam Shows That He Can Arbitrate as Well as Fight—Who the Men Are and What the Questions They Will Solve.

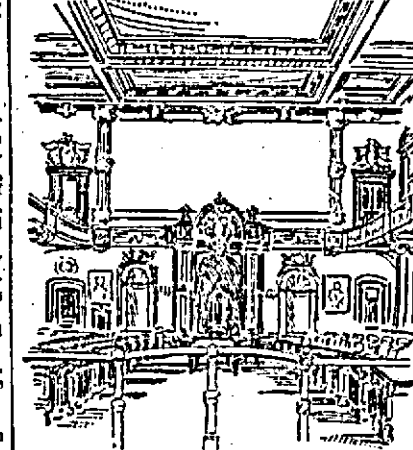

These are busy days for the American diplomat. Not only is he working overtime in trying to convince Spain that she is thoroughly thrashed and must take the consequences, but he is making an attempt to clean up all the differences which exist between Uncle Sam and Canada. In other times over this latter job would occupy his whole attention and fix the interest of the nation, but it has been overshadowed by the more exciting events of the war until the conference is actually under way before we half realize its importance.

The opening of the sessions of the international commission at Quebec is really the starting of a movement which will probably bring about results that will be wide and lasting in their effects. Stripped of diplomatic verbiage, the conference which was opened Aug. 9 in the council chamber at Quebec is an attempt to settle all the disputes and differences which have existed for years between the Dominion and the United States. It is to be a wiping out of old scores. Both Uncle Sam and the Canadians confess to a desire to wipe the slate off clean and start a new score on a friendly basis.

That this is a good, wholesome sentiment every honest citizen must admit. It is almost inspiring, this spectacle of Uncle Sam rolling down his sleeves and shaking hands across the back fence with the neighbor who but a few months back had been a constant menace to his peace of mind.

What the practical effects are to be cannot safely be predicted. We are sure, however, most of us at least, that a good, frank talk and the exchange of concessions can only tend to make the relations between the two countries pleasanter and work for the mutual benefit of both.

An extension of the commerce between the two countries is the prime object, of course. We would like to have the Canadians buy more of our boots, shoes, cloth, machinery and notions.

LEGISLATIVE COUNCIL CHAMBER, QUEBEC.

While they would like to sell us more of their grain, potatoes and lumber. Between individuals this international conference would amount to a conversation something like this:

"Hello, Jonathan! Haven't seen you since the scrap. My eye, but you did give that fellow a sound thrashing! He deserved it too."

"Thanks, neighbor. Glad to see you again."

"Same to you, old fellow. By the way, come over some evening soon. We ought to be more neighborly."

And that is exactly what the gray-haired diplomats who are today gathered in Quebec are trying to say to each other. They would say it in so many words, too, were they not bound by diplomatic conventions which change their talk into rounded periods and involved sentences.

But in order that these neighborly relations may have a fair chance for life it has wisely been decided that all the unsettled points of friction on which they have barked their shins in years past shall first be removed. One of these points, which has been a source of great annoyance to both countries, is the sealing question.

It is a dry subject, but it may be briefly summed up. Uncle Sam owns the islands on which the fur seals for a short time each summer make their home. The rest of the time the seals range the ocean. It is while they are roving about the northern Pacific that the Canadian sealers hunt and slay them. Uncle Sam objects to this and calls it pelagic sealing. He claims that the seals are just as much his property while they are swimming about the ocean as when they are resting on the rocks of the Pribilof islands. He says they are his seals, just as the pigeons which fly for miles away from their coots are still owned by individuals. The Canadians have never admitted this claim to be a just one, and they have gone on killing the seals. We have protested time and again. There have been reams of diplomatic correspondence on the subject, but up to date it has never been settled.

Then there is the old dispute concerning the Atlantic fisheries, involving the three mile limit, the bait question and other side issues. Next come reciprocal trade relations, the bonding privilege, the importation of alien labor and international mining regulations.

If all of these perplexed questions are settled, it will be little short of a miracle, for they have been the subjects for long debates in previous years. But probably no commission ever met under more favorable conditions and we are

somewhat justified in expecting great things.

Questions such as these demanded the appointment of very capable men, and the caliber of those chosen by both nations shows plainly that each has a realizing sense of the important task lying before the commission.

The United States commissioners are Senator Fairbanks, chairman of the senate committee on immigration; Senator George Gray, who took a prominent part in the tariff legislation of 1894 and 1897; John W. Foster, former secretary of state; Representative Dingley, joint author of two tariffs; Representative Kason, special agent under the reciprocity treaty authorized under the McKinley act, and T. Jefferson Coolidge of Boston.

Lord Farrar Herschell is the most distinguished member of the British commission, and his selection by the imperial government is accepted by Canada as a high compliment. Lord

LORD HERSCHELL, HEAD OF THE BRITISH COMMISSION.

Herschell has taken a prominent part in the deliberations of the judicial committee of the privy council within recent years, and delivered the judgment upon the reference as to jurisdiction in the inland fisheries as between the Dominion and the provinces. He has been twice lord high chancellor of Great Britain, during Mr. Gladstone's administrations of 1893 and 1895.

Sir Wilfrid Laurier, premier of the Dominion of Canada, is the next most prominent member of the British commission. He has been prominent in Canadian politics since 1874. His success in securing to Canada the freest possible measure of action in international tariff matters and the readiness of Great Britain to agree with his plans have distinguished him as a diplomatist.

Sir Louis H. Davies was one of the Canadian counsel before the international fishery commission at Halifax in 1877. He has been premier and attorney general of Prince Edward Island, and was appointed minister of marine and fisheries in the Laurier cabinet in 1896.

Sir Richard Cartwright has been one of the most prominent men in Canada for the last 20 or 25 years. He is an avowed free trader, although tied up to a policy of protection just now, and he has always been prominent in planning negotiations with this country for reciprocity.

John Charlton has no knightly title. He is a plain M. P. But he has been a member of the Dominion parliament since 1872, and he believes that "no public issue rivals in importance the necessity for seeking to increase the prosperity of Canada by obtaining more liberal trade relations with the United States."

Soon after Mr. McKinley's election to the presidency Mr. Charlton called on him at Canton, O., and secured from the president the assurance that any delegation from Canada would be courteously received. Mr. Charlton assumed the polite reply to be favorable, and so reported to his government. His appointment as one of the commissioners was objected to by a portion of the Canadian press because he is engaged in the lumber business in Michigan and at Tonawanda, but Premier Laurier was unmoved. Mr. Charlton's practical experience will be useful to the commission.

Newfoundland's request to be represented at the conference has been granted by the British colonial office, and Sir James Winter, premier of the colony, has been chosen as the sixth member of the British commission.

The legislative council chamber, in the legislative buildings at Quebec, where the meetings are being held,

SIR WILFRID LAURIER.

forms a setting worthy the occasion. The Quebec legislative buildings are among the finest structures on the continent, the main building having cost \$1,669,240. The legislative council chamber is 67 feet long, 50 feet wide and 33 feet high. The legislative council is the "red chamber" of the provincial government, and the chamber where the commission will hold its sittings is literally red—carpet, chairs, desks, walls, all are red in either dark or light shades. WHEELWOMAN'S ERRORS.

Forget That Her Costume Is Always the Main Point of Observation.

"Most women will, of course, follow their own tastes in dressing for outdoor exercises, and many of them present a woefully misapplied appearance," writes Mary Katherine Howard, describing "Costumes for Outdoor Sports" in the Woman's Home Companion. "Especially is this true of the wheelwoman, many of whom seem to go on the plan that 'nothing shows on a galloping horse,' and feel that when the wheel is in motion no one remarks about her clothes. But right here she is mistaken. Whether riding or resting her costume is always the point of observation, and bystanders overlook a multitude of sins in grace and speed if the costume be suitable, becoming and fetching. Many women—yes, the majority of them—affect a foolish modesty concerning the length of the bicycle skirt, and are not slow to vote the short-skirted girl as bold and rapid. Neither do we advocate an ungainly abbreviated skirt, but we indorse the skirt that is short enough not to go flopping in the breeze as soon as a little speed is desired. A skirt to the shoe tops does, to be sure, conceal the stocking, but that is the only point in its favor, for it is ugly and ungraceful both on and off the wheel. Wear the short skirt, and conceal the stocking by the use of the high bicycle boot, which is an addition to all wheeling costumes. To be sure, they are warm in summer, but your only alternative is a low-cut boot or an Oxford tie. The latter should never be worn except by boys, men and very small girls, while the former displays the stocking when riding. For both looks and comfort a moderately heavy glove should be worn. Never wear a trimmed hat; that is, in the sense of flowers and lace or fluffy effects. The more severe the hat, the more suitable, durable and tasteful it is. The much-abused Alpine shape should only be worn above pretty and youthful faces. Quite the prettiest wheeling costume is the divided skirt, which falls so close together that no one knows whether it is an all-around skirt or the bifurcated one, worn with a pretty shirt waist, either of silk or some suitable material, and an Eton jacket to match the skirt, with boots of tan or black."

FRENCH YELLOW JOURNALS.

What Effect They Have on International Relations.

If one is to judge of French sentiment touching the United States from the Paris journals, says a writer in Harper's Weekly, the conclusion is inevitable that the traditional friendship between the two republics is of the lowest sort. More than that, it is apparently clear that the people of France, republicans though they may call themselves, are more the friends of a mediæval monarchy whose cruelty and barbarism have shocked the civilized world than they are of the only republic, except Switzerland, which has yet attained a stable position in the world. For it must be remembered that chief among the political problems of France is still that of the continued existence of the republic. The French newspapers, however, do not necessarily represent French, or even Parisian, public sentiment. They are owned by money lenders and controlled by the owners of Spanish bonds; they are vile and venal, and are the models of the yellowest of our own yellow journals. Hardly a word that appears in them is trustworthy. But beyond these sensational newspapers there seems to be in France an antipathy to this country which needs explanation. Probably it is felt, as it is manifested, by those who are offended by the native bad manners of a democracy; and this feeling against bad manners is exaggerated in Paris, because the manners of democratic France are as much worse than the manners of democratic America as it is possible to conceive. The truth is probably that dignified and intelligent Frenchmen have come to hate democracy generally by reason of the antics of French Socialists and other French democrats. Therefore, some intelligent and reputable papers, like the Temps breaks out against us in vilification and even some officers of the navy indulge in criticisms of our own service, because they do not like to believe that the navy of a democratic power can be a strong one.

JANESVILLE BOYS ARE COMING HOME

WAR DEPARTMENT ISSUES ORDERS TO LEAVE CAMP.

They Will Start From Camp in a Few Days—Disappointed at Not Being Ordered to the Front—Sickness Has Greatly Impaired the Physical Condition of Many.

The First regiment is coming home, and the Janesville boys who compose Company A will soon be among us once more, slightly impaired physically by their experience in camp, but a great deal wiser in many respects than they were when they departed. A few have had sickness while in Jacksonville, that has left them in poor physical condition, but the effects will soon wear off in the delightful climate of Wisconsin. But one of the number from this city has died—poor Harry Gifford, who was interned at Oak Hill the other day.

Relatives Have Been Alarmed.

For several weeks conditions at Camp Cuba Libre have caused great uneasiness among the friends of the soldiers encamped there. Letters to the newspapers represented the prevalence of a great amount of disease, mostly of a typhoid malarial type. Although the camp was removed to a more healthful location, the ravages of the plague continued, and at times less than half the company reported in condition fit for duty. Private letters from the soldiers themselves stated that the newspaper correspondents had not told half the truth, and that the conditions were far worse than had been represented. They related tales of suffering that made the reader shudder with horror and pray for the deliverance of the brave boys in blue from the pest hole into which they had fallen. Parents and friends of the soldiers appealed to the governor to use his influence to bring about measures of relief. The governor communicated with the war department, and finally action has been taken. This morning the following dispatch was received by Senator J. M. Whitehead from Governor Snodgrass's private secretary:

Madison, Wis., Aug. 24—Hon. John M. Whitehead—War department has notified governor that the First Regiment will be ordered home to be mustered out. Wm. J. ANDERSON.

Received With Gladness.

There will be general rejoicing throughout Janesville at this intelligence. It means life and health to the loved ones of a hundred homes that for weeks have been darkened by apprehensions of the specter of disease and death. It means the restoration of beloved sons to the arms of their worshipping mothers; of brave and chivalrous brothers to the embrace of devoted sisters. It means the restoration to health of men whose frames have long been racked with pain and whose systems have been impregnated with disease.

It is no reflection upon the bravery of the soldiers at Jacksonville to say that they are rejoiced at the orders which bring them home. Any and all of them would have been glad to fight for their country in Cuba or elsewhere. That was what they enlisted for. It was not that they might lie and rot in a fever infected camp without being able to strike a single blow for their beloved country. From the first they have been anxious for orders to go to Cuba, Porto Rico, or anywhere else that active service was in prospect. Inaction was what was galling, and caused them to fall easy victims to disease. They will return to their homes to regain health and strength, and they will be none the less heroes, for it was not their fault that they did not form a part of the victorious army that stormed the outposts of Santiago or held the positions at El Caney and Guantanamo.

Joyfully Received in Camp.

Jacksonville, Fla., Aug. 24—There was great joy in camp this morning over the news from Washington conveying intelligence that the First Wisconsin regiment was ordered to be sent home to be mustered out. The boys are not sick of war; they are heartily sick of inaction, however. Sick of being camped here in a fever infected swamp prey to disease and death; sick of the canopy of war with no actual war in prospect; sick of the monotony of camp life alternated by long confinement in hospital; sick of a climate that is part a stifling humidity and part a fever-laden atmosphere.

None of the soldiers from Janesville are less patriotic than they were when they left home. There is not a man among them who would not gladly hail orders to move to Cuba or elsewhere if a foe of the government existed. They object, however, to sitting supinely down and giving up their lives when no good is accomplished. Death on the field of battle and in a malarial-infected camp are two different things.

Orders to move may now be expected hourly, and everything will be in readiness for an immediate start.

CORPORAL CHARLES IVES DIES

Was a Member of Company B, and Resided at Fort Atkinson.

Jacksonville, Aug. 24—Corporal Charles Ives, Company B, Fort Atkinson, died tonight. He was lately appointed corporal. He had been ill with typhoid fever for one week, and in the division hospital his condition had been critical for the last few days. Lieutenant Holgren left with the body today.

Libraries for the Soldiers.

Wisconsin's example in providing traveling libraries for her soldiers in the field is to be followed by Buffalo, the officers of the public library there taking the initiative. The plan is much the same as in Wisconsin. Each company is to be given a library of from fifteen to eighteen volumes, encased in a weather proof box, and the companies will exchange libraries periodically. The work is to be done at the library, but the reading matter is to be furnished by the people, as also the money needed for cases, transportation, etc. In addition to the bound volumes, it is hoped to send large quantities of paper bound volumes, magazines and illustrated newspapers, to be distributed without the requirement of returning them to the company libraries.—New York Evening Post.

VETERANS TALK OVER OLD TIMES

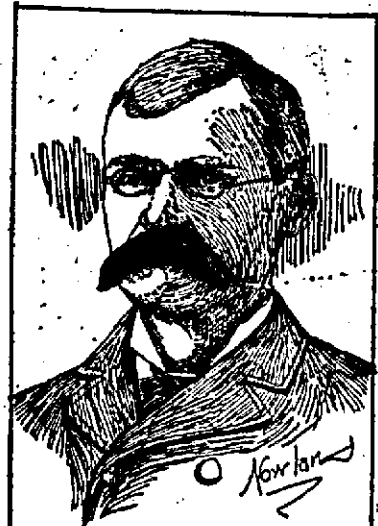

ANNUAL REUNION OF THE THIRTEENTH REGIMENT.

It Was Raised in Janesville in the Early Days of the Rebellion—The Survivors Feast and Recall Incidents of the War—Historical Resume.

The annual reunion of the Thirteenth Wisconsin regiment of volunteer infantry was held today and the veterans of the war of the rebellion who have been scattered all the way from Maine to California assembled here in large numbers. The regiment was raised in Janesville and the meeting at which the initiatory steps were taken towards its organization was held in response to a call published in The Gazette of August 20, 1861. Nearly all the members and officers of the regiment were residents of Janesville and many of the survivors are still here and respected by all who know them.

Receiving the Veterans.

The forenoon was occupied by the reception of members of the regiment coming from other places. A drum

PLINY NORCROSS.

and life corps was on hand to act as escort for the veterans, and the lively music reminded one forcibly of the stirring days of '61.

A business meeting of the regiment was held in the circuit court room, when the following officers for the ensuing year were elected.

President—Capt. Pliny Norcross, of Janesville.

Vice President—Col. W. P. Lyon, of Madison.

Secretary and Treasurer—W. P. Clark, of Milton.

The next meeting of the regiment will be held in Janesville on the third Wednesday in August, 1899.

The thanks of the veterans were voted to the Women's Relief Corps for the very elaborate dinner which was served at 1 o'clock, just east of the court house. The repast was an elegant one, served in faultless style, and the veterans did full justice to the viands set before them.

In the afternoon the veterans numbering in all 112, assembled in the circuit court room. Captain Pliny Norcross presided, and speeches were made recalling old days, by Colonel W. P. Lyon, of Madison, and Lieutenant U. S. Hollister, of Denver, Col. Both received an attentive hearing and were frequently and heartily applauded.

The Regimental History.

As already stated, the Thirteenth was Janesville regiment. The details of its organization are given below:

The Thirteenth regiment was proposed at the close of the six days fight around Raymond, at a meeting held in Janesville to devise means for strengthening the Union cause. Before the assemblage dispersed, a resolution providing for the enlistment of a regiment of infantry from Rock county was introduced and met with immediate adoption. The preliminaries to the business in hand were promptly disposed of and a committee appointed consisting of Senator H. Richardson and the Rev. H. C. Tilton, authorized to confer with the governor and conclude arrangements for enlisting the soldiers and providing them with officers. Hon. J. J. R. Pease, Senator Richardson, and H. G. Collins were appointed to take charge of the camp and see that the "boys" were comfortably provided for. All things being intrusted to the proper authorities, recruiting began, and before many weeks the regimental roster was completed, and consisted of six companies from Rock county exclusively, the balance from Green and Walworth counties. The regiment, rank and file, as also officers, was made up from farm houses and workshops, with a goodly number from Milton College and the High school at Janesville, and went into camp northeast of the city, on what is now the county fair grounds, but at that date called "Camp Tredegar."

It was mustered into service October 17, 1861, and left the state for Fort Leavenworth, Kansas. From thence it marched to Fort Scott, where it remained until March 22, and was transferred to Lawrence, arriving there March 31, 1861. After a month's sojourn, the regiment went to Fort Riley, where it was fitted out for expedition to Mexico. On the eve of departure to the land of cocoa and palm, the orders were countermanded, and the "Mexican expedition" retraced its steps to Fort Leavenworth, going thence to Columbus, Ky., Fort Henry, Fort Donelson, re-

maining at the two forts named for upward of a year, the regimental time being devoted to skirmishes, engagements, harassing Forrest and guarding supply steamers between Fort Henry and Humboldt Landing. On the 27th of August, 1863, the regiment marched to Stevenson, Ala. After remaining at this port for some time, it went into camp at Edgeland, near Nashville, where it remained until the expiration of its term of service, and having re-enlisted was given a furlough of thirty days, the same being passed in Janesville. Upon entering active service once more, the regiment was assigned to the First Brigade of the Fourth Division of the Twentieth Army Corps and served in the southwest, remaining at Stevenson, Ala., until after the defeat of Hood at Nashville, when it was assigned to the Third Brigade, Third Division, Fourth Corps, embarked for New Orleans, going thence to Indianapolis, and serving in Texas until November, 1865, when it returned to Madison via New Orleans, and was mustered out of service.

GROCERS IN HIGH FEATHER

They Had a Jolly Time at Their Picnic at Crystal Springs Park.

The grocersmen of the city of Janesville participated in their annual picnic today, which was held at Crystal Springs park.

When the announcement was made a few weeks ago that the grocersmen of the city would hold their annual picnic on August 24, everyone predicted perfect weather and a large crowd. In this respect they were not disappointed. The hard shower of last evening put the grounds in the best of shape, and made the day one of comfort. At 10 o'clock this morning the boats started to make trips to and from the park, and even at this early hour many took passage. When the noon hour arrived many were on hand to enjoy a picnic dinner served beneath the trees. At 1 o'clock the parade formed at the Grand Hotel, and headed by the Y. M. C. A. band marched down Milwaukee street to Main and north to the steamboat docks. In the procession were Capt. W. T. Vankirk, F. S. Winslow, August Lutz and W. P. Carle. Thirty-eight men, who were either grocersmen or employees, marched afoot. The procession made a very creditable showing.

At the park this afternoon the crowd was large and a good natured one. Games, that were closely contested, were played, and many participated. This evening a dance will be given at both Mayflower and Crystal Springs parks.

HE MADE A GOOD RECORD

Former Janesville Ball Player Helped Milwaukee Greatly.

Charles H. Beaumont who was a member of the local Y. M. C. A. team during the early part of the summer distinguished himself yesterday as a member of the Great City League team who defeated the Kansas City boys. The Sentinel of this morning prints his picture and has this in part to say:

Beaumont was responsible yesterday for the defeat of the Kansas City's and elevation of the Milwaukee to a parity with the leaders, his phenomenal catch in the fifth inning of O'Hagan's low line drive preventing the visitors from scoring while in the Brewers' half of the same inning his home run sent in Bettger ahead of him and won the game, a heavy fall of rain subsequently resulting in the ending of the contest after the blues had played their half of the sixth without accumulating any more tallies. The young player also covered left garden in a most satisfactory manner, and his sacrifice in the third inning was as artistically placed as his single in the first, when he started a batting rally that made the Kansas City magnate shift uneasily on the bench. The youngster will do, he bears all the earmarks of a comer, and under the tuition of Connie Mack he should in time bloom into a player of the first magnitude.

Fish Talk.

Again tomorrow as usual we receive our largest fish invoice of the week direct from the fishermen at the lakes. We like to remind friends of this store of our receiving fish on Thursday, so they can order early enough to give plenty of time for delivery. Our fish trade is large and we try our best to get fish orders around early enough for Friday dinner. Sanborn & Co.

BRIEFS FROM BELOIT

Abandonment of the Blodgett Milling Plant Causes Regret—Luther League Meeting.

Beloit, Wis., Aug. 24—[Special]—The Blodgett Milling Company, whose mill burned down a short time ago, have given up rebuilding it, and the clearing away of the ruins is suspended. The Blodgett Milling Company started in 1817, and therefore was an old establishment. It is a great disappointment to many people, who were interested in it. The company have purchased the Hodge mill at Janesville, and will soon start it up.

The Luther League, of Wisconsin holds a convention in this city today and tomorrow. This League is an association in the Lutheran church. This is the third annual convention. The first was held in Milwaukee, the second in Stoughton. The convention will be entertained by the Bethlehem Lutheran congregation and among many others in attendance will be Rev. W. K. Frick, state president, Rev. Edward Lee, both of Milwaukee; Rev. O. Behlhelm, of Albert Lea, Minn., editor of the Christian Youth and Prof. N. A. Vigness, of Ottawa. The convention will open tonight at 7:30 with the convention sermon by Rev. Mr. Behlhelm. After the address of welcome at the first session. A reception will be tendered delegates and friends by the ladies of the Bethlehem congregation.

ATE CLAMS AND HAD FUN

Beloit, Janesville and Rockford Unite in a Clam Bake.

Some two dozen local business men left the city today for Afton, where they participated in a genuine old fashioned clam bake that was given by a number of the leading business men of Beloit. Afton was not selected just on account of its being a quiet, and out of the way place, but because it was a handy place to reach both from Beloit and Janesville.

The feast took place at the noon hour on the east side of the river drive, and proved in every way a success. Nothing was lacking in the way of good things to eat. The Line City boys proved themselves equal to the occasion, and had everything in readiness on schedule time.

Rockford business men were invited and many took part in disposing of the toothsome clam and the various accompanying delicacies. The Beloiters promised that their guests should have a royal old time, regardless of expense, and the promise was carried out to the letter. Good speakers were on hand, and for music the Temple Quartet, of Rockford, and an Italian orchestra divided the honors. It was a big success.

STRUCK BY A LOCOMOTIVE

Benjamin F. Carr Sustains Painful Injuries at the Depot.

Benjamin F. Carr, who is in the employ of the American and United States express companies in this city, is at present congratulating himself on his narrow escape from death at the St. Paul depot.

While engaged in making transfers from one train to the other he was accidentally thrown in front of an approaching train and before he could get off the track he was struck and knocked several feet. The fact that the train was going at a slow rate of speed was probably all that saved his life. He was badly bruised but will not be deterred from work over a week.

Supreme Lodge Begins Its Session—Gov. Mount Welcomes the Delegates to Indiana—Committee Named for an Investigation.

Indianapolis, Ind., Aug. 24.—The attendance upon the great Knights of Pythias gathering is away beyond anything the people of Indianapolis had anticipated, and though over 15,000 of the visitors are in the tents of Camp Colgrove the overflow is thoroughly taxing the capacity of the city. Tuesday's trains brought in about 40,000 more people, bringing up the total estimated attendance to the neighborhood of 100,000.

The great feature of the gathering Tuesday was the street parade. Owing to the intense heat the start from Camp Colgrove was postponed until 3 o'clock. It is variously estimated that there were from 20,000 to 25,000 men in line when the procession passed before Gov. Mount, Supreme Chancellor Colgrove and other officers of the supreme lodge at the great reviewing stand in front of the court house.

The parade afforded more splendor to Indianapolis spectators than has been witnessed here for years. Maj.-Gen. Carnahan, commanding the uniform rank, mounted on a brown charger, led the parade, riding in front of Indiana. After crossing the Fall creek bridge, the knights assumed the platoon formation and kept it on their way into the city. All staff, brigade and regimental officers were mounted. Following Indiana the brigades moved in the following order: Kansas, Iowa, Kentucky, Illinois, Missouri, Washington, Tennessee, Wisconsin, Virginia, Texas, Pennsylvania, Nebraska, Maine, California, Georgia, Minnesota, West Virginia, Connecticut, New Hampshire, Massachusetts, Michigan, Ohio, New York and Colorado.

The supreme lodge began its session in the hall of the house of representatives at 10 o'clock in the morning. Ex-Mayor C. S. Denny opened the informal open session by introducing Gov. Mount, who delivered a cordial address of welcome.

Other speeches of welcome were made by Grand Chancellor Hunt of Indiana and Mayor Taggart. As soon as the open session was over and some routine business done the supreme lodge took up the question of the charges made in the Monday morning papers against the supreme officers and the finance committee of the supreme lodge.

Supreme Keeper of Records and Seal R. L. C. White asked for a hearing on the ground of personal privilege. He said that the officers of the supreme lodge had been attacked and charges made against them which should be investigated. If those charges were true, then the men holding office were not fit for their positions. If the charges were not true then the man or men who had made them were not fit to be Pythians or members of the supreme lodge.

Mr. White was followed by Thomas L. Meares, master of the exchequer; Representative Fethers of Wisconsin and Representative Burns of Ohio, the last two members of the finance committee. All who spoke were bitter in their denunciation of the person or persons who had circulated the story reflecting on their administration.

Representative Frink of Missouri moved that Supreme Chancellor Colgrove appoint a committee of five to investigate the charges made against the supreme lodge officials and report before the election of officers, which takes place on Thursday. This committee was also directed to secure the names of those making the accusations.

Supreme Chancellor Colgrove appointed on that committee Representatives Gale of Massachusetts, Bangs of North Dakota, Watson of Indiana, Daniels of Idaho, and Richardson of Virginia. The committee was instructed to use all dispatch and make its investigation as thorough and as far-reaching as possible.

The fight for the next meeting of the supreme lodge is on in earnest. Up to date there are but two cities in it, Detroit and Louisville.

In his report Thomas D. Meares, supreme master of exchequer, stated that the receipts for the biennial term ending March 31, 1898, were \$80,575, and the disbursements \$107,367, the balance on hand being \$9,106.

The report of James R. Carnahan, major-general of the uniform rank, showed that the receipts had been \$9,833, and the expenditures \$3,528. No debt was due any one.

Senator Frye Accepts.

Washington, Aug. 24.—A third member has been added to the Paris peace commission. The president has received the acceptance of Senator Frye of Maine, and the commission as now constituted consists of Secretary of State Day, Senator Davis of Minnesota, chairman of the committee on foreign relations, and Senator Frye, the second member of that committee and chairman of the important committee on commerce.

Rob Postoffice at Newman, Ill. Newman, Ill., Aug. 24.—Burglars entered the postoffice in this city Monday night and after blowing the safe open with dynamite secured over \$150 in money and valuable papers belonging to the postmaster, Mr. Hoeb. Bloodhounds were placed on the trail and are still going through cornfields west of the city.

WILL GIVE NO MORE TROUBLE.

Aguinaldo Tells His Followers to Lay Down Their Arms.

MAY BEGIN PLANTING RICE.

The Situation Is Felt to Be Much Improved—Our Troops in Good Health—Commander of the Monitor Monadnock Is in Trouble.

Manila, Aug. 24.—Gen. Merritt has relinquished the military command here to Gen. Otis, and has assumed his duties as military governor. Provost courts have been organized and Col. Jewett has been appointed chief judge.

The situation growing out of the half-hostile attitude of the insurgents to the Americans is improving.

Aguinaldo, who had control of the city's water supply, has permitted the use of the water without its being necessary to compel him to do so.

The general situation is very quiet. The health of the army remains good.

Aguinaldo's adjutant, Infante, says that the insurgent leader has ordered his men to lay aside their arms and to plant rice for future war necessities.

The long delay in the arrival here of the monitor Monadnock from San Francisco displeased Admiral Dewey, who believes that she should have reached Manila some days before Aug. 16, the date of her arrival. He has ordered an inquiry into the matter, and the court convened on the cruiser Baltimore today. Capt. Wildes is president of the court and Lieut. Scott is recorder.

Will Be Military.

Commissioners to Cuba Will Not Handle Diplomatic Questions.

Washington, Aug. 24.—The president and his cabinet on Tuesday considered the instructions to be given to the military commissioners for Cuba. These will be general in character and a large discretionary power will be given the commissioners as to details. The president has great confidence in Gen. Wade and Butler and Admiral Sampson, who have been selected as the commissioners for Cuba. Their general instructions will be that they are to arrange for the evacuation of Cuba and the guarantee of order and safety to all classes of citizens of the island after the Spanish army retires. The details of these arrangements will be left to them, but the Spanish diplomats will find that no consideration will be given to propositions to reimburse Spain for public buildings, bridges, etc.

The commissioners will be given no power to agree to any such propositions. Spain has agreed to withdraw from Cuba. The president in his terms of peace declined to make any conditions except those of unconditional surrender of Cuba and the cession of Porto Rico. If the Spanish commissioners come across the Atlantic with the hope of reintroducing these questions they will be disappointed.

MUSTERING OUT REQUESTED.

Gov. Mount Takes Action for the 157th Indiana Regiment.

Indianapolis, Aug. 24.—Gov. Mount Tuesday received a telegram from Col. Studebaker of the One Hundred and Fifty-seventh Indiana regiment, now at Fernandina, Fla., in which he replied to the executive's telegram of Monday regarding mustering out of men, as follows: "In reply to your message I beg to say that the officers of the One Hundred and Fifty-seventh are willing to await orders, but the enlisted men are unanimous in desiring to be mustered out. I think it just to the men they should be sent home."

Immediately upon receiving the message the governor wired the secretary of war recommending that the regiment be ordered to this city at once with a view to mustering it out of service.

Will Feed the Cubans.

Washington, Aug. 24.—The war department is considering plans for feeding the people in Cuba who may be found in a starving condition when the Spanish troops evacuate. Very little information is yet at hand regarding the condition of the people, but from what was known of them before hostilities began, and the fact that very little opportunity has been afforded since to secure food, it is believed that thousands must be destitute.

Garcia Makes His Report.

New York, Aug. 24.—A copy of the report of Gen. Garcia, made, presumably, to Gen. Gomez, has been received by the Junta here. It gives in detail the part taken by the Cuban troops in the campaign around Santiago from July 1 to the surrender. In concluding his report Gen. Garcia said he led his troops back into the mountains because he supposed he was of no further use to the American commander.

Army Will Aid Cubans.

Washington, Aug. 24.—The Red Cross society will not have charge of the distribution of relief supplies to the destitute Cubans, owing to the opposition of the subsistence department. The subsistence officers say that the law authorizing the distribution of food does not permit the work to be done by any person or organization outside of the army. The offer of Miss Clara Barton, therefore, has been declined.

Second Illinois for Cuba.

Jacksonville, Fla., Aug. 24.—There is no longer any debating among the men of the Second Illinois as to their future movements, for it has been definitely decided that they were to form part of the army of occupation that goes to Cuba under Gen. Lee. While some of the men would have preferred returning to their homes the vast majority are bent on entering Havana.

Sampson Denies Garcia's Claim.

Washington, Aug. 24.—Admiral Sampson said concerning Garcia's claim that Cervera surrendered to the Cubans and was turned over to the navy that it could not be true. There were no Cubans about except a few on the shore. The admiral says Cervera was taken off his flagship by the Gloucester and was afterward taken aboard the Iowa.

France, Spain and Russia Allies.

London, Aug. 24.—The Madrid correspondent of the Times says: "One paper here declares boldly, on the authority of an anonymous French diplomatist, that owing to M. Hanotaux's exertions a treaty of alliance has been signed between Spain, France and Russia, with the object of counteracting the Anglo-German influence in Morocco."

Blanco Ordered to Fight.

Madrid, Aug. 24.—At the cabinet council held last night Gen. Corrales, minister of war, read a telegram from Capt. Gen. Blanco, in which he informs the government that the Cuban insurgents continue attacking the Spanish everywhere. In consequence of this report the council instructed Gen. Blanco to resume an offensive attitude toward the insurgents only.

Still Has Nine Hundred Sick.

Washington, Aug. 24.—The war department last night received the following from Gen. Shafter: "Santiago, Aug. 23.—Adj. Gen., U. S. A., Washington—Santiago report for Aug. 23: Total number sick, 900; total fever cases, 631; total new fever cases, 74; total fever cases returned to duty, 85."

Coins Are Going to Cuba.

London, Aug. 24.—The Times, in its financial article, says that over £100,000 in continental coins, chiefly Napoleons, has been taken to New York for transmission to Cuba. There is no more Spanish gold available even on the continent.

Dewey Can Dock His Ships.

Washington, Aug. 24.—Ambassador Hay has informed the state department that the British government has directed the authorities at Hongkong to grant the request of Admiral Dewey for permission to dock his vessels there.

MISSOURI ON THE WAR.

Favors the Monroe Idea, but Gives Doctrine a Wide Application.

St. Louis, Mo., Aug. 24.—The republican state convention met here Tuesday to nominate one candidate for the long term for supreme judge, one candidate for the short term for supreme judge, one candidate for superintendent of public instruction and a candidate for railroad and warehouse commissioner.

The platform, among other things, declares in favor of increasing our navy to a size commensurate with our expanding commerce and with the magnitude of the interests of this republic which need protection, the completion and control of the Nicaragua canal by the United States as a necessary measure for the protection and extension of American commerce and the perfection of our national defense. It reasserts the "Monroe doctrine in its full extent as a principle of our policy," and declares that the United States should stand aloof from interference with the affairs and disputes of European powers when American interests are not involved; but that "the Monroe doctrine does not compel our government to abandon or return to the tyranny of Spanish rule any of the helpless peoples who have by force of circumstances in the conduct of the Spanish-American war been placed under our protecting care." It further asserts that the Monroe doctrine does not forbid the enlargement and extension of American interests in the eastern as well as in the western hemisphere, and especially in the Pacific ocean, and it therefore approves of the annexation of the Hawaiian islands and favors the "acquisition and ownership of additional naval stations and ports sufficient to afford ample protection to our rightful and naturally growing commerce with Asia and with other countries of the far east."

The report of the platform committee was adopted and the convention adjourned till 9 o'clock this morning.

Pension Department's Report.

Washington, Aug. 25.—In the forthcoming annual report of the commissioner of pensions, H. Clay Evans, it will be shown that on June 30, 1897, there were on the rolls of the pension bureau 976,014 pensioners. To this must be added 6,552 original claims granted but not recorded and 762 restorations which were not entered at the time on the books. Commissioner Evans granted 63,643 original claims during the last year and restored 4,089 pensioners to the benefits of pensions. The pensioners now aggregate 1,040,356.

MAY BE AN EMIGRANT SHIP.

Boxes and Trunks Noticed Would Indicate That There Were Passengers on the Boat—Two Cattle Carriers Sailed for Europe Saturday.

New York, Aug. 24.—Capt. Hansford of the British steamship Algon, a freighter which arrived Tuesday from Hamburg, believes that a passenger ship has been wrecked, probably in collision, almost within sight of the Fire Island beach.

The Algon steamed through a lot of floating stuff between 7 and 8 o'clock Tuesday morning, about ten miles due east of Fire Island. Capt. Hansford says that he counted about thirty boxes and trunks adrift, including a number of big saratogs and several trunks covered with yellowish tin, such as are used by immigrants. There were also a large number of steamer chairs, three wire mattresses attached to bunks and apparently only a short time in the water; a lot of splintered woodwork resembling cabin fittings, part of which seemed to be cattle pens, and two tables.

Among the fleet that sailed for European ports on Saturday were two cattle carriers, one of which also has accommodations for about sixty first-class cabin passengers, and is regarded as equal to the single screws of the Britannic class.

EIGHT KILLED BY A CAVE-IN.

Fatal Accident in a Panhandle Railway Tunnel.

Pittsburg, Pa., Aug. 24.—Eight men were killed and two fatally hurt late Monday night by a cave-in at the Carnegie tunnel in the Chartiers division of the Panhandle railway. The dead are:

B. L. JONES, foreman, Ashland, Va. FELIX MILLS, laborer, Glendale, Pa.

FELICIANO DELSIOR, laborer, Heidelberg, Pa. ANTONIO LESTRAPPO, laborer, Pittsburg.

VITO VOLPE, laborer, Pittsburg. BENIAMINO ROMI, laborer, Pittsburg.

TOMAZ WALASCZY, laborer, Pittsburg. DOMENICO GRUVA, laborer, Pittsburg.

William Wald was taken out with a fractured spine and cannot recover. George Slack is believed to be fatally crushed. Three Italian laborers were slightly hurt.

The men were engaged in enlarging the tunnel. The work is all done at night so as not to interfere with traffic. Monday night they were preparing to pull down the west wall, when it suddenly toppled over them. Seven were taken out dead. Felix Mills died three hours later.

Prohibitionists Name Ticket.

Lansing, Mich., Aug. 24.—The prohibitionists held a largely attended state convention Tuesday, and nominated the following ticket: For governor, Noah W. Cheever, Ann Arbor; lieutenant governor, N. Norton Clark, Williamston; secretary of state, John Sweet, Owosso; state treasurer, Robert King, Lapeer; auditor, Gen. Henry Andrus, Edwardsburg; land commissioner, Jacob Van Zellenberg, Petoskey; attorney general, Myron H. Walker, Grand Rapids; superintendent of public instruction, David S. Warner, Spring Arbor; member state board of education, Delavan B. Reed, Hillsdale. Resolutions were adopted scoring President McKinley for permitting the existence of the canteen in the various camps.

Outsider Wins the Futurity.

New York, Aug. 24.—Martins, a 40 to 1 shot, owned across the Canadian border, romped home Tuesday at Sheephead Bay from twenty-two others, winner by three lengths of the Futurity stakes for two-year-olds, the richest prize on the American turf. Immediately behind him came John Daly's High Degree and Sydney Paget's Mr. Clay, both at long odds, with Dr. Elchberg, one of the favorites and ridden by Sloan, a good fourth.

Quebec Conference Opens.

Quebec, Aug. 24.—The British and American delegates to the international conference were formally welcomed to Quebec Tuesday by the mayor and council in the hall of the legislative assembly. Lord Herschell was made president. The commission has adjourned till Thursday, when it is expected a further adjournment will be asked to enable Mr. Dingley to assist in the Maine campaign.

Britain and Russia Harmonious.

London, Aug. 24.—The Daily Mail's Copenhagen correspondent reports that a compromise has been arrived at between Great Britain and Russia, the latter getting her way in the railway question in China and Britain securing concessions in other directions. "In any case," says the correspondent, "China must pay for all."

Queen of Denmark Is Worse.

Copenhagen, Aug. 24.—It is reported that the condition of the queen of Denmark has become worse and that her daughter, the Dowager Czarina, has postponed her departure.

ON THE VERGE OF WAR.

Bloodshed Imminent at Pana—Citizens' Indignation Meeting.

Pana, Ill., Aug. 24.—The striking miners from Springfield, Penwell and Pana mines are watching every approach in town for the arrival of the negroes shipped from the south by the mine owners and now near their journey's end.

D. J. Overholt, president of the Springdale mine, said that negroes would surely be brought here, but he would not say when. The sheriff has rifles and ammunition and the deputies are armed and ready.

Union miners dispatched a committee, composed of Martin Roberts and Mossy West, to Centerville, who will wire the miners here upon arrival of negroes at that point, so that a warm reception may be given them upon their arrival here. When the negroes do arrive it is expected that they will find a force of 2,500 men opposing their entrance to the mines.

They will be talked to first. The case will be laid before them and they will be reasoned with. If they decline to listen to the arguments and to act upon them it is a foregone conclusion, according to the consensus of local opinion, that only a miracle can prevent bloodshed. The miners are desperate.

An indignation meeting of the people was held at the city hall, attended by over 2,000 citizens. Resolutions denouncing the importation of negroes were adopted.

FEAR FAMINE IN RUSSIA.

Repetition of Last Year's Failures of the Harvest.

London, Aug. 24.—The St. Petersburg correspondent of the Times says great uneasiness is felt over the repetition of last year's failure of the harvest. In seven districts of the province of Kazan, and largely in the provinces of Samara, Saratoff, Simbirsk, Viatka and Perm, the crops are almost worthless. Even the landed gentry are beginning to ask the government for relief, and the prospects of a famine are most grave. The ministers of the interior and of finance are sending out agents to make inquiries and to purchase corn. The Zemstvos are bestirring themselves to meet the situation. It is reported that in some districts the peasantry are breaking into the communal granaries and helping themselves.

Wisconsin Foresters Convene.

Marquette, Wis., Aug. 24.—One hundred delegates and 500 visiting Catholic Foresters attended pontifical high mass at Our Lady of Lourdes church Tuesday. In the afternoon the first business session was held. The most important matters that will come before the convention will be the election of officers and the discussion of the advisability of declaring in favor of a reserve fund.

Louisiana Town Fire Swept.

Logansport, La., Aug. 24.—Tuesday afternoon fire broke out in the Chicago Lumber and Coal company's building and in a very short time communicated to adjoining buildings until there is not a business house, hotel or depot in town. The loss at present is estimated at \$30,000, about half that amount insured.

Arrested for Killing Wall.

Mattoon, Ill., Aug. 24.—Dennis Healy and Harry Cole, policeman and constable of this city, Tuesday arrested a man who answers very closely the description of Otto Matties, the German who is wanted for the murder of State Senator Wall of Staunton, Ill. Macoupin county. Officers from Carlinville will come to identify the suspect.

American Flag Flies in Hawaii.

Washington, Aug. 24.—Admiral Miller, who went to Hawaii to raise the American flag, notified the navy department Tuesday that the ceremony took place on the 12th and was both imposing and beneficial. He says he will make a fuller report by mail.

A GREAT WASH DAY SAVING!

Every bit of work you can save on wash day is that much strength and time gained. There is a great plenty of real necessary work over and about the tub to make the closing of the day a relief to every woman. You have been in the habit of using Starch that requires boiling. Why do you do it? We are introducing a cold water Starch, called I. X. L., that does the work better in every way than any other Starch, and does entirely away with the need of boiling. We don't

make this claim for goodness of quality without knowing it positively to be a fact. We have seen it tested and do not hesitate to recommend it highly. I. X. L. cold water Starch has given the best satisfaction thus far with people who have used it. It's a new article and is taking wonderfully well, and as it becomes better known will take the place of other brands in Janesville homes. We bought in large enough quantity so that we were enabled to secure the jobbing price, and can make lower prices to the trade than is usual throughout the county. The regular retail price of I. X. L. Starch is 10c per package. We are putting it out 3 packages for 25c. Give I. X. L. Starch a fair trial. There will be no question as to your verdict.

Always Short A Collar.

Never have too many on hand. They soil quickly and the large supply of fresh linen you thought you had has dwindled away.

We Have Fixed the Collar Question.

You can have collars to spare, plenty of them.

Collars at 5c.

Collars at 10c.

Collars at 15c.

We have just added a line of 15c collars, pure linen, 4 ply, the proper weight for the laundry. Styles and shapes are the very latest—round points in standing and turn down, every height; positively the same value as those sold at 20 and 25c, and all we ask you is.....

15c

(2 for 25c.)

Cotton Collars are in high favor in the cities this season. We have put in a complete line of them to be sold at 10c straight; they ought to go at 15c but we are after reputation. These collars stand wear and laundering better than linen—so people say who have worn them. The shapes are all late, in fact, in duplication of imported German collars that retail at 35c; you can have all you want of them at..... **10c**

Broken sizes in Chert, Coon & Co.'s and Earl & Willson's 25c collars, standing and turn down, go at 5c.

A Mothers' Opportunity...
 In those wide turn over collars for boys to wear with Shirt Waists, regularly sell at 20c; we put them down to 5c. We are cleaning out our collar stock and have many good bargains at 5c.
